

Brief instructions:

- This page should be skipped from being printed,
- In the print dialog, you may choose which page to print, try avoid printing both versions,
- Page 2 contains the instruction in AirTag version (TRACKER-AIRTAG-FOR-VORON),
- Page 3 contains the instruction in Galaxy SmartTag2 version (TRACKER-SMARTTAG2-FOR-VORON),
- This document uses 4x6" paper size spec. If you have it, use it, otherwise, it needs to be scaled.
- You may prepare a double-sided tape to add adhesive and to convert the paper into a sticker.
- You can use scissors or utility knife to cut the edges out.
- If you have a cutting machine (i.e. Cricut cutting machines or Bambu Lab H2 series), it's recommended that you use the SVG or PNG version.
- If you are importing SVG or PNG, be sure to set its size to 4cm.
